R. King Leads Team in Scoring With Good Average Against

Georgetown, Gallaudet, George Washington, and Catholic University Resume Work.

Tech Basketers Will Report on Monday

Coach Jakey Roberts, of Tech, has called out candidates for the basketball team and will handle his team at the Carroll Institute. Roberts is eligible to play for Tech until February. but will not take part in the games. A number of games will be arranged with high school quints during the year. Pfeiffer, Eiseman, Myers, and De La Vergne, the former Georgetown Prep player, will form the basis of a team for Manual Trainers. There will be thirty candidates out according to the coach.

By BRYAN MORSE.

Friends Select School basketers present a fine record in basket shooting for the five games in which they have participated during the season and bid fair to turn in a better record than that of last year. but seven boys in the school big enough to stand the gaif of playing against high schools and prep schools here the record is all the more remarkable.

There is no capable second team at Friends as there is in many of the other schools and the Quakers have little opposition in practice. They are not in any league and play independently against all of the other teams in the city.

C. R. Aavitz, coach of the Quakers, says he thinks he has a faster com-mation than that of last season and gectares that all of the scholastic teams here have made rapid strides since last season. The Friends coach is some-what handicapped by a small gym, but has succeeded in developing as clever a passing game as any quint in

he city.

R. King, left forward on the Friends team, has an unusual record. In live games played, the Quaker has averaged seven baskets per game. Against the best guards in the city, King has scored thirty-eight baskets. Boynton, right forward, has caged twenty bas-kets, while Jacobsen has thirteen; Harnson, nine; and Bullard, three.

has shot one basket in the cni, game

which he participated.

The schedule for the remainder of the scason is as follows: January 14, Friends vs. Business, January 21, Friends vs. Western: January 22, Friends vs. St. Albans, February 2, Friends vs. Georgetown Preps: Febru-ary 4, Friends vs. Y. M. C. A., Febru-ary 8, Friends vs. Y. M. C. A., Febru-Friends vs. Baltimore Friends, Pebruary 18, Friends vs. Georgetown Freps, February 21, Friends vs. Army and Navy Freps, February 20, Friends vs. Baltimore Friends, at home.

It will be more than a week before the colleges here get going for basket-ball. Georgetown's team gets together Thursday next, Catholic University will start up in mid-week, while George Washington has been holding its work-outs during the holidays. Tomorrow washington has been holding its workouts during the holdings. Tomorrow
week, the Hatchetites play Gollaudet
at the Y. M. C. A., while on the following Thursday Georgetown and
George Washington play at Georgetown
in their first meeting of the year.

Central's track team will be built around Captain Milstead, Birthright, Jones, Millard, Pennybacker and Dun-lop, holdovers from last year. Central is planning big things for its track team this season.

Next year the stadium at Central is expected to be completed and the team will train there. Central has always led all of the schools here in track. and bids fair to maintain it supremacy.

Captain Tibbetts, of Tech has a game of baseball played in the send them against any of the school teams in dual games this winter. Western will have to develop an entirely new the first game was played in 1642. We ream this season as Capt. Frank Bridget is the only letter man remain-ing from last year. It will be remem-bered that Western stacted with but one veteran last winter and succeeded in winning two of the indoor meets with Maxam, Griffith, and Peyton.

Bugologist Tells How the Cucaracha Bugs Could Mobilize. Roll Down Mountain Sides Fill Up Trenches and End War.

The second Pan-American Scientific Congress has brought to Washington a host of men of great renown. Some are merely delegates to the congress. Others are here to let the world know of their great discoveries. One of the latter introduces himself as Senor Don Quixote Manana, South American savant and entomologist. If you listen to the senor don you'll be convinced that he could have gotten the European boys out of the trenches before Ymas. out of the trenches before Xmas.

While not desiring to detract in the least from Henry Ford's laudable atwith my friends, tempt to extract the soldiers from their and I haven't an gravel gutters, Senor Manana insists that Senor Ford embarked in a wrong direction on his peace quest.

Senor Ford made the meestake of working on the soldaire instead of the trenches," vouchsafed Senor Manana during an interview. "During a long he little bug, and him have I named

Cucaracha bug in honor of the slide." "These leetle bug he have lots of companions, what you Americans call pals, and they mobelize in the great pais, and they monecuze in the great quantity wherever they ace the ditch or the canal. He slide down the moun or the canal. He side down the non-tain and the mountain slide down after heem and fill up the canal. Senor Ford take the boatload of bugs on the Os-calre Three and they slide down the tranch the same as the canal. Soon, post: Thaire ees no trench. The soldelre cannot fight without the trench. Not Enthusiastic In Praise.

Not all of the entomologists "look ing on" at the congress are enthusiastic in praise of Senor Manana's scheme, and some call him a mere Editor Queeries-I see that a of him as a "nut." The senor, however, does not care. Furthermore he does not believe in putting his bugs all in one basket. In event of his bugs to loan on local propositions at 5% to 6% Interest Cucaracha bug falling down on the job, he possesses as an auxiliary expedition, the renowned Melanolestes Picipes, colloquially known as the kissing bug. It is the senor's idea to kissing bug. It is the senor's idea to make America so untenable for the kissing bug that he will migrate in innumerable hordes to Europe and attack the opposing armies. Senor Manana is certain that the kissing bug's example will be contacious, and the war will terminate when the boys gavotte from the trenches and bombard each other with 42-centimeter osculations. But listen 42-centimeter osculations. But listen

to the Senor himself:
"Eet is too sad that the Oscaire
Two did not have the Melanolestes Picipes on board. Then thaire would not have been the terrible quarreling. The only deeficulty I see ees the kising bug will become lost and be-wildered in these terrible maze of Russian whiskaires. But then, senor, we men of brains must become used to the numerous deeficulties of Among other solutions to the Eu-
